City of Covington Housing Development Department
2300 Madison Avenue
Covington, Kentucky 41014

Dear Sir or Madam:

It is my understanding that Bayer Becker is submitting their qualifications to the Covington Housing Department regarding the surveying needs of the neighborhood stabilization program. I would like to recommend Bayer Becker provide these services for the City.

Bayer Becker has worked with the Covington Independent Public Schools on several surveying and engineering projects during the last decade. Please recall that they worked with us and the City to accomplish our Sixth District Elementary School site expansion. They were able to service the many different aspects of this project flawlessly. Since then, they have also performed property acquisition surveys for us and have provided services at Two Rivers Middle School, Holmes High School and Thomas Edison Elementary School.

Their engineers and land surveyors have a great understanding of local requirements regarding land boundaries, zoning codes and the existing infrastructures required for today's projects. They were able to foresee potential problems and provided opportunities for us as a part of their service. I have enjoyed working with Chris Gephart and the entire Bayer Becker team and am confident they will provide the City of Covington with the high quality services that the Housing Department expects.

DESTINATION: GRADUATION
